Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on returns data from 1 April 2013 to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future Fund Updates. See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

*\* The fund does not have a full 5-year return history as it started on 1 December 2016. To calculate the risk indicator, we used actual returns where available and market index returns for the remainder of the five years to 31 March 2018. The risk indicator may therefore provide a less reliable indicator of the potential future volatility of the fund.*

## NOTES

<sup>1</sup> As the fund commenced on 1 December 2016 fee data described in the PDS was used for the fund charges table.

<sup>2</sup> Total fund charges are an estimated percentage of the value of your unitholding balance in the fund. This estimate is, in part, based on actual annual fees expected to be paid to underlying fund managers and is also based on anticipated investment levels in the fund. Actual charges may vary from the estimates provided.

Estimated total fund charges are exclusive of GST and are made up of the management fee, the underlying fund managers' fees and other administration fees, which are accrued on a daily basis and reflected in the unit price of the fund. Total fund charges comprise:

- management fees, which are paid to Britannia for the management of the fund's assets;
- underlying managers' fees and expenses (including any performance fees of their underlying funds), which are estimated and paid to the underlying fund managers for their management services; and
- other administration fees, which include the Supervisor's fee, the Custodian's fee, the Administration Manager's fees (for registry, valuation and unit pricing services), and the estimated accounting expenses of the fund.

The Manager may also charge reasonable auditing and other professional services charges to the fund in the future. Currently the Manager does not charge these fees to the fund, so the estimated fee for these professional services is nil.
